

BAG (B)

McF. Notes

Bags of finds that have been studied or from which objects have been removed, are given a catalogue number B 1 B 2 etc. These bags so catalogued are not stacked by their numbers but but are kept in their old typographical divisions in the little Apotheke. Any object removed from bags are listed on the bag catalogue card; this includes

a Catalogued objects
Uncatalogued finds in McF. Note book
Sherds put in drawes under their
bag number; many sherds are of course catalogued

These lists of removed objects should not be considered as complete unless specifically so stated.

The Find place usually is not put on the object catalogues if the bag of finds (mostly sherds) has been catalogued and given a number; one is simply referred to the Bag catalogue where the find place is stated.

This system has continued since war

If a catalogued sherd should be missing,
look and see if it is assembled with other
sherds under its bag number in another drawer.
