M 861

Bronze Pitcher

H: W.O. 15

D: O. 126

Complete; ^{lower part} bent & smashed in

Flat base set off from conical body; lower $\frac{1}{3}$ of body flares out convexly to carination then in concavely to fairly narrow neck; short flaring rim with ^{small, irregular, shaped perforations} triangular flat edge on top edge. Separate handle: clasps the neck $\frac{3}{4}$ the way around, roughly triangular in section; the handle itself

is round in section & extends from
the greatest diam. to section that drops
right, having a 45° elbow; ornamental
extensions at both lower attachment
and upper.

Mixed dec: around neck, 2 bands
of wavy lines. Two shallow grooves
running horizontally above carination.
