Dear Dr. Pepper,

I am in receipt of your kind note written on the train & much hope that I shall be able to get to Stockholm this summer or autumn, when I shall most gladly try to secure a good series of Scandi-avian subjects for the Museum. If I find that I cannot go in person I shall try by letters to friends - at all

events I gladly assume
the charge of this
matter, for it is a
great pleasure to me
to do ought in my
power to further the
Museum.

On my way here, the
other day, I spent two
days at Zurich, where
I saw much of Prof.
Otto Sill, a distinguished
ethnologist who spent
many years in Guatemala,
& is now occupying a
chair at the University
of Zurich. —
I spoke to him of
the desirability of our

getting a small representative
collection of specimens
from the lacustrine
districts of Switzerland,
& told him of the
specimens offered me for
sale at Lausanne, of
which I wrote to Mrs.
Sherman recently. He
very kindly offered to
speak to the director of
the Archaeological Museum
(who was absent) a
friend of his, & to
consult other friends,
so as to obtain a
collection of scientific
value, at as low a
price as possible. He
thought the Lausanne man

Although outside the
limit of Prussian
archaeology, the objects
he offered to send in
in exchange are of
great interest, being
from the Baltic
provinces of Prussia.
In the enclosed letter
he reminds me of the
the hope I gave him
that we would send
him a few
Museum, reformed skulls,
pottery, etc. — also
from the Pueblos, if
possible — and
stone implements,
palaeolithic & neolithic,

such as I received &
distributed in Russia.
He sends the 3 catalogues
I forward to you, in
which you can see
what Prof. Beyzenberger
can send us. A glance
at the list of the
American objects in their
Museum will show you
how poor it is in this
respect & that any
duplicates you can
spare would be
welcome.
I beg you to kindly
have a list of
exchange specimens
sent to Dr. Beyzenberger

as soon as possible -
I hope that Dr. White
can spare him a nice
mummy. At all events,
it is certainly an
opportunity to be
grasped, for bronze
& stone type specimens
from North - Prussia
are impossible to obtain
otherwise - there are none,
I am sure, in the U.S.

Dearest Son,

I have been hoping daily
to hear from you - each
time I think of you
suddenly I ask myself:
is this telepathy, is this
a sign she is coming,
is near? You see, dear
that if you do not come
soon my mental balance
will suffer by it for I
am cultivating confidence
in occult signs & am
betokening the approach
of a longed for friend!

I sent you a picture
of my summer home
the other day & now
I write to tell you
how pleasantly I am
settled here & how much
I want you to come
& pay me a visit
here - as my guest
in my mountain-
abode. This is an
ideal spot for rest
& work - we are
surrounded by the
most beautiful
scenery in the world
& below in the
valley lies the fashionable

health-resort, Rajah,
where bands play each
afternoon & faint

all this & shall only
descend daily to take
my baths, for Nadine
& I delight in solitude
& long rambles in the
woods & I enjoy my
girlies' society more
than I can tell. -
I long for news of
you - do write
even but a line
to tell me how

Dear Mr. Nuttall, -

In an evil
mood I put off replying to
your kind letter, thinking I would answer
it when I had despatched the
Russian collections and was
able to tell you that I had
discharged all the obligations you
imposed. I have sent off all
the acknowledgments and all the
publications for exchange, but the
specimens are still delayed.

I was delighted with the
specimens you procured for me. The

Klingley Chess is of the greatest
interest and I shall sign the
pieces in my new book. I sent
you some little time since a
money order for \$15 which I
trust will reach you safely.

I hope you will not be
offended with what I said in
the Bulletin nor what I marked
you in reference to your visit to
Russia. I shall get out another
study and will be glad if you
will remind me if I have
neglected to give credit where it
is desirable - for friendly services.

My dearest Sarah!
The heartiest of welcomes
to this side of the
Ocean! I trust you
have had a pleasant
crossing & that it has
been a rest & relaxation
to your over-worked
system. I cannot tell
you how happy I am
at the prospect of

seeing you soon &
how I hope you can
come here! For I have
begun my massage-cure &
baths & am liberally
a prisoner, held here
until the 25th of August,
for the doctors insist that
my cure should last
six weeks in all & I
have to try to get rid
of my muscular rheumatism
which causes me so much
trouble. I have had
to move down to this
hall from Wartenstein
& send Nadine to the

mountains, with her
teacher & 8 little school-
mates. For the poor
child had no companions
here & was having a
very slow time of it.
So I am quite alone here
& longing for your visit
& Could you not come at
once & take a rest-cure
& some of these wonderful
baths? Do, do!!!
Since your dear letter
came I have written several
notes to friends in Paris
& Rome - inquiring whether
they would be in town
during August - but, alas!

a fortnight & will occupy³
the cottage in which I
now dwell - it is a
dependance of the hotel &
I have a pleasant little
room in it. Carmen
Sylva is such an interesting
personality & is so much
interested in all that
concerns the literary &
scientific work of women
that it would be easy to
be presented to her if
you should like to. If
so, & if you come, as I
hope & trust, you can
make inquiries at Her
Embassy either in London
or in Paris, about your
presentation. I suppose

our Minister to Roumania
should be applied to. —
I am writing to friends
to judge me in the
matter also & shall let
you know what they
write me. — I should
like to meet her &
hope you will be here
to share the pleasure.
The massage & baths have
made me feel quite
weak & wretched thro'
last week, but the
worst is over now &
I am looking forward to
a complete cure, — &
a lasting one.

4
Here I but free at
present, & well, I should
follow my heart's desire
& meet you as you
land in English soil
& escort you to France
& drag you here to
recuperate! Do write
me at once what your
movements are going to
be, so that I can know
when I may hope to
have the joy of seeing your
dear face again.

After Sept. 1st I could
arrange to meet you
somewhere - I must be
in Lausanne then, on
account of Madine's re-entering

school on that date, & I
must feel her from here.
But that is surely too long
& time to defer the joy of
seeing you - do come
here, dear girl, for your
own health's sake & for
my joy. —

Write soon & greet
Mr. Peirce from an
entire admirer of his
works which I have read
with much pleasure &
profit. —

Most affectionately
Yours,
Zelie.

Your welcome
letter has just reached me &
I answer it at once to
tell you how truly I

Now I want you to

I do hope you can meet
me at Berne — your
doing so would save

I must tell you that
Berne is only 3 hours

I shall see about meeting

And please let me know

I am to meet you —
for I am here with
Nadine & as her holidays
are going on & we
undertake excursions, I

also about our return

Let me tell you that, after resting here today we went to the fine new Musée Cantonal where I was surprised to find a fine ^{though} small ethnological collection from different countries - a magnificent series of palafites. I thought it advisable to apply to the Director for possible exchanges & although I only saw his substitute I was assured that he would be delighted to make exchanges with the Museum. dear visit - we

I am now in

settled for the winter -
after a glorious trip &
to Sweden - a month's
stay at Stockholm &
a fortnight's visit in
Gresden. -
I am writing, on a
separate sheet, what
I did for the Museum
at Stockholm - the
only thing I bought was
a set of interesting models
illustrating the methods
of transportation: of
ploughing etc. of the
Russian peasantry. I
found these at the
Russian department of

M. Culier in July - in
which he says that he
had sent me a draft
for \$15 which I had
spent for him in Russia.
I never received the sum
& he does not tell me
how he sent it. Please
inquire from him as
I have no time to write
to him about it today & do
not like to do so. Je
laisse tout à votre discrétion
et tact.

Dr. Poppe has not acknow-
ledged the receipt of the sets
of stamps I sent him in
May, registered - did they
reach him? -
As you will see I
have not sufficient
money remaining of the

see, the collection is getting
on splendidly.
Comtesse Orloff has
been spending some days
here with me & has
promised to procure
certain costumes for us. I
have reminded her of the
Viadha some implements she
promised me & we shall
get them all in due
time - certainly by
next Spring. -
Before long I shall
have several cases sent
from Pige, containing all
that has been accumulating
these last months. -
I am as usual

busy with work & correspondence that I cannot write to dear Mrs. Hearst about this collection now, - will you see her soon? or can you let her know about its new additions? -

Please also inform Dr. Pepper of these matters & give my cordial greetings to him. -

Can Mrs. Overmoff & her two daughters want to join us in going to Egypt next winter - should you fail me I shall go with them - but you must

not miss the trip next year!! - The Overmoffs are the most delightful travelling companions & I know you would like them immensely. -

Meanwhile I must work & finish! -

I long for news of you, dear good friend - do drop me a line soon & relieve my mind about you. Tell your husband I shall take his sword myself - meanwhile I send him many greetings. -

By the way - I received the enclosed letter from

exchanges I have arranged
for you in Stockholm.
I long to hear that
Wlh has received his
material & that the promised
sets of exchange specimens
are on their way to
Russia & Königsberg. —

Many cordial greetings
to yr. husband, Dr. Decker
Wlh &c. etc. —

Most affectionately yours.

way, most interesting, &
completes the series already
in hand. —

Therefore I beg you to
have the above sum sent
at once to the Consul
of the United States at

directing him to pay
this sum on receipt
of the collection from
the Trans-Caspian
Provinces, addressed to
him.

I shall shortly send
the account of the second set
Moscow models, as soon
as I receive it.

This payment will
then have to be sent
to Moscow direct, as
the last.

Now dear friend

I must close as lunch
is served & I must
not delay any longer
in sending you these
lines.

I shall write to Mr.
Bornholdt today, notifying
him that he will receive
the sum of 164 rubles.

directly from you. -
In writing you might
thank him for all the
trouble he is taking for
us in keeping the cases
which arrive ~~in~~ in

forwarding them to
Philadelphia. It is
very obliging of him to
do all this for us. -

You should also add
that you desire an
exchange of publications.

Lansdowne,

Dearest Sara,

I have just been 'devouring'
your interesting article in
the Century Magazine & am
looking forward eagerly to
its continuation.

Meanwhile I hope for a
letter from you, for I
long for news of you.
Now, as a sequel to
my last letter I must
tell you that besides
making exchanges with
Mr. Hildebrandt of
Stockholm, as per memorandum
I sent you, there is

another possibility of
obtaining a fine series
of Scandinavian stone
implements, which has
been recommended me
by Montelius, the great
(greatest) archaeologist
of Sweden. —

You are to write an
official request, directly
from the University or
Museum, stating that
you are in need of
Scandinavian specimens
for scientific study
& beg for a series
of type specimens of
stone implements & also
relics from the bronze
age. State that you

at Stockholm & a favorite
of the Kings. — He has
magnificent photos to
illustrate lecture & it
will be a great success. —

I am writing to Alice
Fletcher & hope she can
get him a lecture in
Washington.

Now dear Sara, I must
close with ever so
much love to you & many
friends to your husband
& all mutual friends.

Yours as ever

J. H. S.

Montetius writes me that
this will be the most
efficacious method of
obtaining the desired
result.

Now about an interesting
& important matter. —
Doubtless you have heard
of Mr. Sven Hedin,
the young Swedish capta-
n who has made such a
remarkable voyage in
Turkestan & nearly perished
in crossing the desert in
search of a new mode of
communication. —

He is a scientist &
explorer of the first degree,
has been greatly honored
in his country & is now
in Berlin where he has

been highly appreciated
& brilliantly received at
the Geographical Society
where he lectured on
his daring expedition.
It is his intention
to visit the U. S.
before long - he speaks
English perfectly & is a
first-class lecturer.
Of course he will
make a ^{regular} lecturing tour
in the U. S. - possibly
with an impresario -
but of course the more
invitations he has the
better for lecture the better for
him. He might disagree
with the impresario in
some cities.
Now you, who are the

prime mover of matters
scientific in Philadelphia
could you not invite
him to lecture there
in one or more
of the societies? Of
course he needs the
payment of the lecture,
as he is not well
off. If you can
let him lecture early
in the Spring it would
be splendid for all
concerned. Write me
on this as soon as you
can, so that I can
communicate with him
on the subject. - He is
a gentleman, a
charming fellow, & very
popular in the best societies

Sir:

I have the honor to notify you that I have
this day shipped to your University, one box
containing publications of the Imperial Society
of History and Archeology at Odessa. The freight
charges from this port by water to New York, and the
railway charges from New York to Philadelphia, will
all be charged forward to be paid on delivery.

No charges for box etc have been included, as
the writer is a graduate of the University of Pennsylvania
and will always be glad to be of service.

A translation of the letter from the Russian
Society is herewith enclosed.
