Dear Mr. Culin,--

I had a very pleasant talk,
this morning, with Mr. H. H. Furness,
3d. He tells me that he has not
resigned from the Archaeological
Association; that his interest in
the Department is unabated, and that
he is contemplating presenting us
with the results of his last expedi-
tion. He was exceedingly cordial in
his attitude.

Very truly yours,

C. C. Harrison

My dear Mr. Culin

Were it not for a most persistent and severe return of the old Borneo jungle fever I should have been in town long ago to get our collection in shape, but as it is I am housed for the present. If you will write to Dr. Hiller (350 S. 16th) I'm sure that he will be delighted to go out to the Wistar Museum with you and let you have any of the games that we brought back with us from the Loo Choos or Borneo. As soon as I am well enough I intend to get the whole collection in shape for an informal exhibition.

Very truly yours

Dear Sir

Herewith I enclose to you a list of sundry articles collected in Borneo and the Luchu Islands, by Dr H. M. Heller and myself on our recent sojourn in those regions. Inasmuch as they fall within the scope of the Archaeological Museum it will afford us much pleasure if you will accept them with the understanding that the collection is to be kept as much as possible in adjacent cases, and more especially that, under no circumstances, shall

any article be sold or given away or exchanged - except
in the case of duplicates.

We regret to attach even this slight limitation to the
gift, but you will see that the reason therefor is not a
personal one, but that it is made in the hope that the
Museum may remain always preëminent in this country
in this department.

I remain, my dear Sir

most respectfully, yours

Dear Mr. Culin,

I have identified the large pod,
which you sent over to the Biological
School with David as Entada
scandens a member of the natural
order Leguminosae. It is an
Entada, but it may be some
other species, as I have no means
of finding the species by the
ordinary means, such as the Index
Kewensis, or DeCandolle's Prodrromus.

I will shortly return the pod
With best wishes for a prosperous
New Year.

Sincerely, John W. Harshberger

Dear Mr. Culin:-

I know that you will be glad to hear that I am now able at least to go to my office and dictate a little correspondence.

Mr. Hawley, one of our preparators, was telling me yesterday of a collection in Philadelphia from Borneo and that it was for sale. Wo'nt you tell me something about this? Are you thinking of buying it? If so, I should not even think of entering into competition with you.

Without committing ourselves in any way possible I shall be glad if you will let me know what is the truth about the collection.

Very truly yours,

Curator.

My dear Mr. Culin

I just returned from a visit
out of town, & as would have
returned this sooner.

I am also in receipt of Mr.
Thousons additional letters - for
which I am indebted to you.

Hoping to see you before I
have to leave town - I remain

Most sincerely

In temple grounds was a little
raised bullock with a phallus
on top (under a tree)

A stone about 3 feet high with on the
back a woman's face with hair-gilded-
resembles one of Cassandra. In front of the
phallus was a tin can containing 25 to 28
bamboo sticks marked with a Chinese letter.

Dear Mr. Cullen

So sorry that this has been so long
in coming, but I was delayed by the Linotype Co
who are yet behind hand with the cuts which I will try
to let you have by this afternoon or tomorrow

I hope this T.M.S. will prove satisfactory to you.
Will you kindly see that the cuts are returned after
printing as I would like to keep them for future use.
Yours truly

My dear Mr. Culin

Many thanks for the letters of introduction and the lists they will be a great help to us in formulating our ideas in regard to collecting. Our address in San Francisco until October 22nd will be Palace Hotel, Market Street. Our permanent address will be Care of The Hong Kong And Shanghai Banking Corporation, Singapore. With many thanks for your kindness and with hopes that we may be able to bring back some things of real value and interest, believe me

Very sincerely yours
