The Secretary
University of Pennsylvania.

Dear Sir

I venture to
ask the favor of some
information regarding
a son of mine Robert
Burkitt who has been,
as I have been informed,
a correspondent on
antiquarian subjects
with your University
I have had no direct
communication with
him for some 10 or 12 years
but within the last 18 months

over, as the result of some
inquiries I learned that
up to that time he had had
the connection with your
University to which I
have made reference,
& his address at that
time, (the winter of 1913)
was said to be of Messrs
Pensets, Champney & Co
Plantation Sepaguite
Parque Alta Vera Paz
Guatemala -

Not having had any
acknowledgment of a
letter written to him,
upon receipt of that

address, I am anxious
to have it verified
which I am thinking
could be done by you,
in case he still is
in communication
with your University.
& I should be very
grateful to you if
you could help me
in this matter -

I would further ask
you, if you have any
^{in case}
^{other} information regarding
him which you think

might be serviceable
to me, to favor me with
it: at the same begging
you not to mention to
any person this Enquiry of
mine lest it should
prove prejudicial to
the object I have in
view: viz the renewal
of a long-interrupted
Correspondence with him.
I do not know how to
prepay for reply, but
the British Stamp I un-
doubt may be of some
Service to you. Remain
Yrs friend &c
Wm. H. Burdett
