W-12-11f e--Fragments -- position not determined

L-27-171

Stela 12. From upper terrace of structure XXVII, right side facing the pyramid. 4 large pieces -- to be restored.

See Maler, Memoirs of Peabody Museum, Vol. p.

L-27-172

W-6-9  
 (should be  
 W-5-?)

Fits onto L-16-913  
 Part of stucco head  
 (The head is numbered L-16-913; the number L-27-172 does not appear on the object, but is used merely to account for the 1932 field number)

L-27-173                      Fragment of plaster  
 Marked E-1-154?.      Probably wall plaster, showing  
 painted red on yellowish orange on white plaster  
 background design. Probably from pyramid XLVII,  
 level unknown.      Small

L-27-174      W-12-10      Fragment of plaster, painted red (not orange)  
 Small

L-27-175      W-12-10      Small fragment of limestone, painted red (not  
 orange)(?)

L-27-176      E-1-159      Small portion of carved object, probably a thin  
 tube; design in low relief on outer surface;  
 polished inside. Probably claystone -- to be  
 identified

L-27-177                      Small piece of pumice stone, roughly worked  
 into semblance of a head; eyes indicated by  
 two large depressions, mouth by groove, nostril  
 by two small depressions; hair (?) at back by  
 vertical grooves; band or fillet (?) by  
 horizontal groove above the eyes. Top and  
 bottom flattened. Number obliterated;  
 piece certainly came from South group,  
 probably S-2-13 (the number on the envelope),  
 though it was not mentioned in the field  
 catalogue.      H. 2.7 cm.; Max. D. 2.5 cm.

L-27-178                      trapezoidal  
 Small piece of flat stone -- to be  
 identified -- broken in 3 pieces.  
 Apparently cut to shape; not polished.  
 W. at base 2 cm.; W. at top 1.5 cm.;  
 H. 2 cm.; Bevelled as if for inlay;  
~~with traces of dark substance on back~~  
 Not catalogued, set in wax, and therefore  
 probably from burial level of vault #1,  
 structure XLIII.

L-27-179      E-4-6      Fire-damaged portion of right femur of cave  
 burial, showing possible effects of disease

L-27-180                      14 human teeth:  
 7 molars, 3 incisors, 4 cuspids or bicuspids.  
 Found on packing with L-27-179, supposed to  
 belong to cave burial; identification doubtful.  
 Molars little worn; one shows large hole, possibly  
 from decay during life.

{ With this burial were found 2 carved bone tubes, both destroyed  
 in fire. See notes Mary Butler. Miss Butler's drawing from  
 memory on reverse of card.
