 Probably error. check!

Note by LS, Mar. 1949.
 The Field numbers ~~SE-13-1 to 5~~ SE-13-1 to 5 were applied to Structure S-5 in 1937. There was here is therefore erroneous; and SE-13-6 to 26 represents wrong use of operation number 13, but no duplication of numbers on pieces. To save useless work, let these stand and change the operation at Str. 5 to SE-13X.

W-17-96 (Behind walls of vault of Burial #5 - prior to it, probably prior to Str. J-5 or contemp. with it.)

Note that two thirds came from house mounds, discovered with three men and practically no excavation as a by-product of map-making; one third from excavations, with 10 to 14 men. There is little doubt that figurines are more common in the peripheral house-mound areas; perhaps because they were not kept so clean - or perhaps they were used there?
