For Night photo

Photos: Later.

Time: 3 min, about 1 m away - OK
In nearer part of stela.

- See 554-6

Flashlights.

1 Flash, diffused, 2 min @ 11

was OK on stela 5 (but diffused
at far end; rather over at
near end. Probably held quite
close.

3 min with 2 diffused flashes,
50 or more away, @ 16, gave
excellent results on Stela 1 & 2.
